For The City - July - We Love Our Sanitation & Postal Workers

Please play the provided video on your Roku Player.

We hope you enjoy today's video hearing from one of our members, Christen Wakefield, as she explains how she has reached out to some under-appreciated workers in our communities. It really is so simple to do and could have eternal consequences. Our sanitation and postal workers both work jobs that do not get a lot of glory, but would be greatly missed if they didn't show up! Over the last few months we have been slowly building a relationship with the great folks at the Fort Smith Sanitation Department. We have taken doughnuts over a couple of times and even threw them and their families a big cookout.

We hope you will take some time this month to do something small for one of these workers. Be sure and post photos on our GABC Facebook Group or you can email them to our Mission Pastor, Scott Ward, at scott@grandfamily.net.

Always remember, the goal is to get to disciples who worship, grow, and go. We start with good works which lead to relationships which lead to the gospel.

Prayer

Take a few moments this morning and pray for our city employees including our sanitation and postal workers. Pray that our church would shine a bright light that leads to many coming to know Christ as their Savior.

Do Something

TODAY right after the morning worship service in Room 114, we will be hosting an informational meeting for our upcoming fall trip to Central Asia. If you are interested in the trip, we invite you to come to the meeting. We will also have a short time to update folks on how the team is doing and pray for them.
