

Mission Moment - January 7, 2018 For The City - January - Sanctity of Life Month

Please play the provided video on your Roku Player.

Our For The City emphasis for January 2018 will be Sanctity of Human Life where we will be collecting diapers of all sizes to be given to local pregnancy crisis centers. You can bring your diapers to the Mission Area in Guest Services throughout the month of January.

We unapologetically believe that abortion is 100% wrong and should be illegal. We, therefore, have committed to work with a number of pregnancy crisis centers in the area, including River Valley Pregnancy Medical Center. This and other organizations in our community strive tirelessly to end the practice of abortion while at the same time support those who have made the choice to abort and live with the guilt and shame.

January 21 is Sanctity of Life Sunday, which is a day recognized nationally by many evangelical churches. We will be having a special emphasis on this day to recognize the work that many in our community are doing to work toward a nation with laws that recognize and respect life that begins at conception.

Prayer

Today take a moment and pray for all of the people in our community who are working to abolish abortion by being on the frontlines of working with young men and women who are on the brink of making a terrible choice.

Do Something

Our Perspectives Class begins next Monday, January 15th, at 6:30pm in the Refuge. Everyone is invited to this first, free class to hear from Sean Cooper. The class will end at 9:30pm, and we will provide snacks and drinks.
